

PRODUCT KEY FACTS

abrdr Liquidity Fund (Lux) – US Dollar Fund

April 2026

- This statement provides you with key information about the abrdr Liquidity Fund (Lux) – US Dollar Fund.
- This statement forms part of the offering document and should be read in conjunction with the offering document of abrdr Liquidity Fund (Lux).
- You should not invest in this product based on this statement alone.

Quick facts

Management Company:	abrdr Investments Luxembourg S.A.
Investment Manager(s) and, where applicable, Sub-Investment Manager(s):	Internal delegation to one or more Investment Manager(s) and, where applicable, Sub-Investment Manager(s) as described under the section headed "The Investment Management Entities" of the Prospectus and the section headed "INVESTMENT MANAGEMENT DELEGATION" in the Hong Kong Supplement from time to time. The relevant entities appointed for the Fund and their relevant role (i.e. Investment Manager and/or Sub-Investment Manager) are set out at www.aberdeeninvestments.com/en-hk ¹ under Fund Centre. Such information will also be further disclosed in the most recent annual or interim report of abrdr Liquidity Fund (Lux).
Depository:	Citibank Europe plc, Luxembourg Branch
Ongoing Charges over a Year:	Class A-2 Acc: 0.43%*
Dealing Frequency:	Daily
Base Currency:	USD
Dividend Policy:	No dividend payment
Financial Year End:	30 June
Minimum Investment:	All Class A shares: US\$500 initial, US\$500 additional

* The ongoing charges figure is an annualised figure calculated based on the actual expenses incurred for the period from 1 July 2025 to 31 December 2025. This figure may vary from year to year.

What is the product?

This is a fund constituted in the form of a mutual fund. It is domiciled in Luxembourg and its home regulator is the Commission de Surveillance du Secteur Financier ("CSSF").

The purchase of a share in the Fund is not the same as placing funds on deposit with a bank or deposit-taking company. The Management Company and the Investment Managers has no obligation to redeem shares at the offer value and the Fund is not subject to the supervision of the Hong Kong Monetary Authority.

Despite the net asset value ("NAV") of the Fund may be described as "Constant NAV" in the prospectus, the NAV of the accumulation share class (and the issue and redemption prices of shares in the accumulation share class) may fluctuate. Whilst the investment objective of the Fund is to preserve capital, it is not intended to maintain a stable net asset value per share and the shares may fall in value and investors may suffer losses.

Investment Objective and Policy

The Fund's investment objective is to preserve capital and provide liquidity whilst aiming to deliver a return in line with prevailing short term money market rates for which Secured Overnight Financing Rate has been chosen as a benchmark. The Fund qualifies as a Money Market Fund under the MMF Regulation[#] and more specifically as a Low Volatility Net Asset Value Money Market Fund ("LVNAV MMF") as defined in MMF Regulation.

To achieve this objective, the assets of the Fund are invested with the principle of risk diversification predominantly in fixed or floating US Dollar denominated Money Market Instruments and in deposits with credit institutions, including but not limited to, fixed-term deposits at financial institutions, certificates of deposit, commercial paper, asset-backed commercial papers (ABCPs), medium-term notes, short-term treasury bills, floating rate notes, asset backed securities and call and notice accounts for bank deposits. The Fund is actively managed and may hold ancillary liquid assets, provided that the Fund will only invest in instruments permitted under the MMF Regulation. The Fund may have exposure to investments with zero or negative yields in adverse market conditions which may reduce the share price.

The Fund may use the derogation provided under section 17.7 of the MMF Regulation and invest, in accordance with the principle of risk spreading, up to 100% of its assets in different money market instruments issued or guaranteed separately or jointly by (including but not limited to) the European Union or its Member States or any other relevant international financial

¹This website has not been reviewed by the SFC and may contain information of funds not authorised by the SFC.

institution or organisation to which one or more Member States belong. Please refer to the Appendix A of the prospectus for details of entities investable under section 17.7 of the MMF Regulation.

The Fund's investment in securities is limited to those with a residual maturity not exceeding 397 days. The Fund's investment has a weighted average maturity ("WAM") that does not exceed 60 days and a weighted average life that does not exceed 120 days.

In addition, the Management Company and the Investment Managers will seek to obtain and maintain a fund-level rating of AAAm or equivalent external credit rating assigned by at least one ratings agency.

The Fund may enter into reverse repurchase transactions. It is expected that such transactions may range from 0 to 20% of the Fund's assets.

The Fund promotes environmental and social characteristics but does not have a sustainable investment objective. Investment in the Fund's assets will follow the "abrdn Liquidity US Dollar Fund Investment Approach".

Through the application of this approach, the Fund will target a MSCI ESG Fund rating of at least AA.

This approach utilises abrdn's fixed income investment process, which enables portfolio managers to qualitatively assess how ESG factors are likely to impact on the company's ability to repay its debt, both now and in the future. To complement this research, MSCI ESG Scoring is used to quantitatively identify and exclude those companies exposed to the highest ESG risks. In addition, abrdn apply a set of company exclusions, which are related to the UN Global Compact, Controversial Weapons, Tobacco Manufacturing and Thermal Coal.

Engagement with external company management teams is a part of abrdn's investment process and ongoing stewardship programme. This process evaluates the ownership structures, governance and management quality of those companies, in order to inform portfolio construction.

Further detail of this overall process is captured within the abrdn Liquidity US Dollar Fund Investment Approach, which is published at www.aberdeeninvestments.com/en-hk¹ under "Fund Centre".

#MMF Regulation refers to the Regulation (EU) 2017/1131 of the European Parliament and of the Council (as amended).

Use of derivatives/investment in derivatives

The Fund's net derivative exposure may be up to 50% of the Fund's net asset value.

What are the key risks?

Investment involves risks. Please refer to the offering document of abrdn Liquidity Fund (Lux) for details including the risk factors.

1. General investment risk

- The Fund's investment portfolio may fall in value due to any of the key risk factors below and therefore your investment in the fund may suffer losses. The Fund is an investment fund and not in the nature of a bank deposit. There is no guarantee of the repayment of principal.

2. Risk relating to Amortised Cost Method

- The investments of the Fund may be valued using the amortised cost method, which takes the acquisition cost of a security and adjusts that value to account for amortisation of premiums or discounts until maturity.
- Amortised cost method may result in the valuation of the security being higher or lower than the market price of the security if it was sold. During the periods when amortised cost method is used, the daily fluctuation in value of the shares in the Fund may differ somewhat from an identical computation made by a fund with identical investments utilising available market price in order to value its portfolio securities. Where the value of a security as determined by the amortised cost method of valuation is higher than the market price of such security and an investor redeems at a redemption price calculated on the basis of such amortised cost value, the Fund may be left with a portfolio of assets whose value is lower than the market price of the relevant securities. The remaining shareholders may therefore be worse off where the fund prices at a Variable NAV.
- The adjustment of value of a security is applied at a pre-set amortisation regardless of the impact of fluctuating interest rates on the market value of the security. As a result, the accuracy of the amortised cost method of valuation can be lowered by changes in market interest rates and credit standing of issuers of the securities.
- Sudden movements in interest rates or credit concerns may cause material deviations between the market value of a security and the value calculated using the amortised cost method.

3. Risk of applying Variable NAV

- On each business day, the underlying investments of the Fund will be valued by using two methodologies, which will produce two net asset values, namely a Constant NAV and a Variable NAV. In calculating the Constant NAV,

investments may be valued using amortised cost method, with the exception of assets with a residual maturity of over 75 days, or assets that deviate by 10 basis points or higher from the value calculated with the amortised cost method; instead those assets will be priced on a mark-to-market or mark-to-model method. In calculating the Variable NAV, investments are calculated in the same manner as Constant NAV, except that the applicable rounding arrangement will differ. The Constant NAV per share will be rounded to the nearest percentage point or its equivalent when the Constant NAV is published in a currency unit, whereas the Variable NAV per share is rounded to the nearest basis point or its equivalent.

- In circumstances where the Constant NAV deviates from the Variable NAV by more than 20 basis points, or when assets may deviate by 10 basis points or higher from the value calculated with the amortised cost method, all assets will be valued by using mark-to-market or mark-to-model method (or the last reported net asset value, in case of investments in other money market funds).
- Despite the net asset value of the Fund being described as "Constant NAV", the issue and redemption price of accumulation shares may fluctuate. Whilst the investment objective of the Fund is to preserve capital, the shares may fall in value and investors may suffer losses.
- Subscriptions, redemptions and exchanges of accumulation Shares in the Fund are not carried out at a price equal to the Constant NAV, and instead are carried out at a price that is equal to the Variable NAV of the relevant Class.

4. Negative Yield Environment

- Market conditions, including but not limited to a reduction in interest rates, may have a material impact on the yield payable on shares of a class. Either the yielding will be so low that following the deduction of the charges and expenses applicable to that class will be a negative number (negative net yield) or the yield will already be a negative number before the charges and expenses have been deducted (negative gross yield). Negative yields may reduce the share prices. Such market conditions, together with any actions taken by financial institutions in response thereto (such as, for example, by way of reducing interest rates and therefore income payable on the Fund), are outside the control of the Fund.

5. Risk of using liquidity management tools

- The Management Company has discretion to impose a dilution levy, impose a redemption gate or may temporarily suspend redemption in shares in certain circumstances, including if the Fund's liquidity falls below required minimums because of market conditions or other factors. The dilution levy will be deducted from the amount payable to a shareholder in respect of the redemption of shares and will be retained by the Fund. Accordingly, shareholders may not be able to sell shares or redemptions may be subject to a dilution levy at certain times.

6. Risks associated with debt securities (including money market instruments)

- Credit / Counterparty risk: The Fund is exposed to the credit/default risk of issuers of the debt securities that the Fund may invest in.
- Interest rate risk: Investment in the Fund is subject to interest rate risk. In general, the prices of debt securities rise when interest rates fall, whilst their prices fall when interest rates rise.
- Volatility and liquidity risk: The debt securities in emerging markets and frontier markets may be subject to higher volatility and lower liquidity compared to more developed markets. The prices of securities traded in such markets may be subject to fluctuations. Investments in frontier markets may be subject to volatility and liquidity risk to a greater extent since they tend to be even smaller, less developed, and less accessible than other emerging markets.
- Downgrading risk: The credit rating of a debt instrument or its issuer may subsequently be downgraded. In the event of such downgrading, the value of the Fund may be adversely affected. The manager may or may not be able to dispose of the debt instruments that are being downgraded.
- Valuation risk: Valuation of the Fund's investments may involve uncertainties and judgmental determinations. If such valuation turns out to be incorrect, this may affect the net asset value calculation of the Fund.
- Credit rating risk: Credit ratings assigned by rating agencies are subject to limitations and do not guarantee the creditworthiness of the security and/or issuer at all times.

7. Risks associated with collateralised and/or securitised products

- The Fund may invest in asset backed securities and asset backed commercial papers which may be highly illiquid and prone to substantial price volatility. These instruments may be subject to greater credit, liquidity and interest rate risk compared to other debt securities. They are often exposed to extension and prepayment risks and risks that the payment obligations relating to the underlying assets are not met, which may adversely impact the returns of the securities.

8. Sovereign debt risk

- Investment in debt obligations issued or guaranteed by governments of certain developed and developing countries or their agencies and instrumentalities ("governmental entities") involves a higher degree of risk. The governmental entity that controls the repayment of sovereign debt may not be able or willing to repay the principal and/or interest when due in accordance with the terms of such debt.
- A governmental entity's willingness or ability to repay principal and interest due in a timely manner may be affected by, among other factors, its cash flow situation, the extent of its foreign reserves, the availability of sufficient foreign exchange on the date a payment is due, the relative size of the debt service burden to the economy as a whole, the governmental entity's policy towards the International Monetary Fund and the political constraints to which a governmental entity may be subject.

- Governmental entities may default on their sovereign debt. Holders of sovereign debt, including the Fund, may be requested to participate in the rescheduling of such debt and to extend further loans to governmental entities.

9. Risk of using financial derivative instruments

- Risks associated with financial derivative instruments include counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. The leverage element/component of a financial derivative instrument can result in a loss significantly greater than the amount invested in the financial derivative instrument by the Fund. Exposure to financial derivative instrument may lead to a high risk of significant loss by the Fund.

10. Risks relating to reverse repurchase transactions

- In the event of the failure of the counterparty with which cash has been placed, the fund may suffer loss as there may be delay in recovering cash placed out or difficulty in realising collateral or proceeds from the sale of the collateral may be less than the cash placed with the counterparty due to inaccurate pricing of the collateral or market movements.

11. ESG Investment Risk

- Applying ESG and sustainability criteria in the investment process may result in the exclusion of securities in which the Fund might otherwise invest. Such securities could be part of the benchmark against which the Fund is managed, or be within the universe of potential investments. This may have a positive or negative impact on performance and may mean that the Fund's performance profile differs to that of funds which are managed against the same benchmark or invest in a similar universe of potential investments but without applying ESG or sustainability criteria.
- Furthermore, the lack of common or harmonised definitions and labels regarding ESG and sustainability criteria may result in different approaches by managers when integrating ESG and sustainability criteria into investment decisions. This means that it may be difficult to compare funds with ostensibly similar objectives and that these funds will employ different security selection and exclusion criteria. Consequently, the performance profile of otherwise similar funds may deviate more substantially than might otherwise be expected. Additionally, in the absence of common or harmonised definitions and labels, a degree of subjectivity is required and this will mean that a fund may invest in a security that another manager or an investor would not.

How has the fund performed?

- Past performance information is not indicative of future performance. Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year-end, NAV-to-NAV, with dividend reinvested.
- These figures show by how much the Class A-2 Acc increased or decreased in value during the calendar year being shown. Performance data has been calculated in USD including ongoing charges and excluding subscription fee and redemption fee you might have to pay (if any).
- The Investment Managers views Class A-2 Acc being the most appropriate representative share class as this share class is opened for investment by Hong Kong retail investors and broadly indicative of the Fund's performance characteristics.
- The benchmark is Secured Overnight Financing Rate.
- Fund launch date: 09/1984
- Class A-2 Acc launch date: 09/1984

Is there any guarantee?

This Fund does not have any guarantees. You may not get back the full amount of money you invest.

What are the fees and charges?

Investors should refer to the offering document of abrdn Liquidity Fund (Lux) for details regarding the fees and expenses of the Fund.

Charges which may be payable by you

You may have to pay the following fees when dealing in the shares of the Fund.

Fees and charges

Subscription fee:

What you pay

Not applicable

Switching fee (between shares classes of the Fund):

Nil

Redemption fee:

Not applicable

Ongoing fees payable by the Fund

The following expenses will be paid out of the Fund. They affect you because they reduce the return you get on your investments.

Management Company's Fees:

(of the Fund's net assets)

Annual rate

up to 0.01%

Investment Management Fee:

(of the Fund's net assets)

All Class A shares: Up to 0.50%*

Performance Fee:

Not applicable

Service Providers' Fees and Expenses:

(of the net assets of abrdn Liquidity Fund (Lux) as determined on the last dealing day of the month)

The Depositary's fee will not exceed 2% (plus VAT, if any); The Administrator's fees will not exceed 0.05% (plus VAT, if any); for the Paying Agent's Fees and Expenses, the fees will not exceed 0.01% (plus VAT, if any); the Registrar and Transfer Agent's fees will not exceed 0.1% (plus VAT, if any); the Distributors' fees will not exceed 0.45% (plus VAT, if any)

*You should note that the Investment Managers reserve the right, at their absolute discretion, to vary such rate between 0% and 0.50%. Investors should refer to www.aberdeeninvestments.com/en-hk for up to date information on charges. Please refer to the latest annual and interim reports of abrdn Liquidity Fund (Lux) for up to date information on the actual investment management fees charged for the period covered in the reports.

Other fees

You may have to pay other fees and charges when dealing in the shares of the Fund. For details, please refer to the offering document of abrdn Liquidity Fund (Lux).

Additional Information

- You generally buy and redeem shares at the Fund's next-determined net asset value after the Hong Kong Representative receives your request in good order before 5:00pm (Hong Kong time) on the Hong Kong business day (being a day, other than Saturday, on which banks in Hong Kong are open for business). Before placing your subscription or redemption orders, please check with your distributor for the distributor's internal cut-off time (which may be earlier than the Fund's dealing cut-off time).
- The net asset value of the Fund and the price of shares is published daily at www.aberdeeninvestments.com/en-hk¹.
- The difference between the Constant NAV and the Variable NAV is published daily at www.aberdeeninvestments.com/en-hk¹.
- Investors may obtain the past performance information of other share classes offered to Hong Kong investors (if any) from www.aberdeeninvestments.com/en-hk¹.
- Investors may obtain information on the distributor(s) by referring to Client Services Team of abrdn Hong Kong Limited.

Important Notes

If you are in doubt, you should seek professional advice.

安本流動基金（盧森堡）- 美元基金

2026 年 4 月

- 本概要提供安本流動基金（盧森堡）- 美元基金的重要資料。
- 本概要是銷售文件的一部分，並應與安本流動基金（盧森堡）的銷售文件一併閱讀。
- 請勿單憑本概要而決定投資於本產品。

資料便覽

管理公司：	abrdn Investments Luxembourg S.A.
投資經理及副投資經理（如適用）：	內部委託至一個或多個投資經理及副投資經理（如適用），不時在招股說明書「投資管理實體」一節及香港補充文件「投資職能轉授」一節敘述。就本基金任命的相關實體及其相關職務（即投資經理及／或副投資經理）載於 www.aberdeeninvestments.com/en-hk ¹ 中的「基金中心」之下。相關資料亦將會於安本流動基金（盧森堡）最近期的年度或中期報告進一步披露。
存管人：	Citibank Europe plc, Luxembourg Branch
全年經常性開支比率：	A-2 類累積：0.43%*
交易頻密程度：	每日
基本貨幣：	美元
派息政策：	不派息
財政年度終結日：	6 月 30 日
最低投資額：	所有 A 類股份：首次 500 美元，其後每次 500 美元

*經常性開支比率乃基於 2025 年 7 月 1 日至 2025 年 12 月 31 日期間實際開支計算的年度化數字。這數字每年均可能有所變動。

本基金是甚麼產品？

本基金以互惠基金形式組成，在盧森堡註冊，其所在地監管機構是金融業監管委員會（Commission de Surveillance du Secteur Financier）（「CSSF」）。

購買本基金的股份不同於將資金存入銀行或接受存款公司。管理公司及投資經理並無義務按發售價值贖回股份，且本基金不受香港金融管理局的監督。

儘管本基金的資產淨值在招股說明書中被稱為「固定資產淨值」，但累積股份類別的資產淨值（及累積股份類別的股份發行及贖回價）可能會波動。儘管本基金的投資目標是保障資本，但其無意維持穩定的每股資產淨值，且股份價值可能下跌，且投資者可能蒙受損失。

投資目標及政策

本基金的投資目標是保障資本及提供流動性，同時提供符合當前短期貨幣市場利率的回報，因此，有抵押隔夜融資利率已被選為基準。本基金符合貨幣市場基金規例¹下之貨幣市場基金資格，更具體而言，屬於貨幣市場基金規例所界定的低波動資產淨值貨幣市場基金（「低波動資產淨值貨幣市場基金」）。

為實現該目標，本基金的資產按照分散風險原則，主要投資於以美元計值的定息或浮息貨幣市場工具及信貸機構存款，包括但不限於金融機構的定期存款、存款證、商業票據、資產抵押商業票據、中期票據、短期國庫券、浮動利率票據、資產抵押證券以及通知存款賬戶。本基金以主動方式管理，並可持有輔助性流動資產，但本基金將僅可投資貨幣市場基金規例允許的工具。在不利的市場狀況中，本基金持有的投資可能面臨零收益率或負收益率，這可能會降低股份價格。

本基金可利用貨幣市場基金規例第 17.7 節規定的減損，根據風險分散原則，將最多 100% 的資產投資於（包括但不限於）歐盟或其成員國或一個或多個成員國所屬的任何其他相關國際金融機構或組織單獨或共同發行或擔保的不同貨幣市場工具。關於貨幣市場基金規例第 17.7 條下的可投資實體的詳細資料，請參閱招股說明書附錄 A。

¹ 此網站未經證監會審閱，並可能載有未經證監會認可的基金資料。

本基金投資的證券限於剩餘到期日不超過 397 日。本基金投資的加權平均到期日不超過 60 日，加權平均期限不超過 120 日。

此外，管理公司及投資經理將尋求在基金層面維持至少一間評級機構賦予的 AAAm 或同等外部信貸評級。

本基金可訂立反向回購交易。預期此類交易可能涉及本基金資產的 0 至 20%。

本基金提倡環境及社會特徵，但並無可持續投資目標。

對本基金資產的投資將遵循「安本流動美元基金投資方法」。

通過這一方法，本基金將以至少達至MSCI ESG基金評級的AA評級為目標。

此方法運用安本的固定收益投資流程，令投資組合經理能夠在質化方面評估ESG因素可能會如何影響公司當前及未來的償債能力。為補充該研究，MSCI ESG評分用於在定量方面識別及排除最高ESG風險的公司。此外，安本採用一套公司剔除標準，涉及聯合國全球契約、爭議性武器、煙草生產及熱能煤。

與外部公司管理團隊溝通是安本投資流程及持續盡責管理計劃的一部分。此流程評估該等公司的擁有權架構、管治及管理層質素，以便為投資組合構建提供參考。

關於此整體流程的更多詳細資料載於安本流動美元基金投資方法，該方法刊登於 www.aberdeeninvestments.com/en-hk¹ 內的「基金中心」之下。

*貨幣市場基金規例指歐洲議會及理事會規例（EU）2017/1131 號（經修訂）。

使用衍生工具／衍生工具投資

本基金的衍生工具風險承擔淨額最多可達本基金資產淨值的 50%。

本基金有哪些主要風險？

投資涉及風險。請參閱安本流動基金（盧森堡）銷售文件，了解風險因素等詳情。

1. 一般投資風險

- 本基金的投資組合價值可能由於下列任何主要風險因素而下跌，因此閣下於本基金的投資可能蒙受損失。本基金為投資基金，且並非銀行存款性質。概不保證能夠償還本金。

2. 與攤銷成本法有關的風險

- 本基金的投資可使用攤銷成本法進行估值，當中採用證券的購入成本並進行調整，以計入直至到期日前的溢價或折讓攤銷。
- 攤銷成本法可能會導致證券的估值高於或低於證券如果出售時的市場價格。在使用攤銷成本法的期間，本基金股份價值的每日波動可能稍為有別於某基金為對其投資組合證券進行估值，而採用可得的市場價格對相同投資作出的相同計算。如果按攤銷成本法估值釐定的證券價值高於該證券的市場價格，且某投資者按基於該攤銷成本價值計算的贖回價贖回，本基金剩下的資產投資組合價值可能會低於相關證券的市場價格。如本基金按可變資產淨值定價，剩餘股東的利益將受損。
- 證券的價值調整按預先設定的攤銷方法進行，而不論利率波動對證券市場價值的影響。因此，攤銷成本法估值的準確性可能會因市場利率及證券發行人的信用狀況變化而降低。
- 利率或信用狀況的突然變化可能會導致某證券的市場價值與採用攤銷成本法計算的價值之間出現重大偏離。

3. 採用可變資產淨值的風險

- 於每個營業日，本基金的相關投資將使用兩種方法進行估值，這將得出兩個資產淨值，即固定資產淨值和可變資產淨值。在計算固定資產淨值時，可使用攤銷成本法對投資進行估值，但剩餘到期日超過 75 日的資產或較採用攤銷成本法計算的價值偏離 10 個基點或以上的資產除外；該等資產將採用按市價計值及按模型計值法進行定價。在計算可變資產淨值時，投資按照與固定資產淨值相同的方式計算，惟適用的取整安排會有不同。當固定資產淨值以貨幣單位公佈時，每股固定資產淨值將取整至最接近的百分位或其等值水平，而可變資產淨值將取整至最接近的基點或其等值水平。
- 在固定資產淨值較可變資產淨值偏離超過 20 個基點的情形下，或當資產較根據攤銷成本法計算的價值偏離 10 個基點或以上時，所有資產將採用按市價計值或按模型計值法進行估值（或如屬於其他貨幣市場基金的投資，則按最後報告的資產淨值進行估值）。

- 儘管本基金的資產淨值被稱為「固定資產淨值」，但累積股份的發行及贖回價可能會波動。儘管本基金的投資目標是保障資本，但股份價值可能下跌，且投資者可能蒙受損失。
- 本基金的累積股份不以等於相關類別固定資產淨值的價格認購、贖回及交換，而是以等於可變資產淨值的價格進行。

4. 負收益率環境

- 市場狀況（包括但不限於下調利率）可能會對某類股份的應付收益率產生重大影響。一種情況是收益率將頗低，以致於在扣除適用於該類別的費用及支出後為負數（負淨收益率），另一種情況是收益率在扣除費用及支出之前已為負數（負總收益率）。負收益率或會降低股份價格。此類市場狀況以及金融機構對此採取的任何行動（例如下調利率，從而會降低本基金的應付收益），均不在本基金的控制範圍內。

5. 運用流動性管理工具的風險

- 在若干情況下，包括如果本基金的流動性因市場狀況或其他因素而降至低於規定的下限，則管理公司有酌情權以收取攤薄徵費、設置贖回門檻或可暫停贖回股份。攤薄徵費將從就贖回股份應付股東的款項中扣除，並將由本基金保留。因此，某些時候，股東可能無法出售股份或須就贖回繳納攤薄徵費。

6. 有關債務證券的風險（包括貨幣市場工具）

- 信貸／對手方風險：本基金須承受其可能投資的債務證券發行人的信貸／違約風險。
- 利率風險：本基金的投資須承受利率風險。一般而言，債務證券的價格在利率下降時上升，而在利率上升時下跌。
- 波動性及流動性風險：與較發達市場相比，新興市場及前沿市場的債務證券可能面臨較高的波動性及較低的流動性。於該等市場交易的證券的價格可能有波動。投資於前沿市場或會面臨更大的波動性及流動性風險，因為相比其他新興市場，前沿市場往往規模更小、相對不發達，且更不易進入。
- 評級下降風險：債務工具或其發行人的信貸評級其後可能被下調。如評級被下調，本基金的價值可能會受到不利影響。經理未必能夠處置被降級的債務工具。
- 估值風險：本基金投資的估值可能涉及不確定性及判斷性決定。如有關估值經證實不正確，則可能會影響本基金資產淨值的計算。
- 信貸評級風險：評級機構評定的信貸評級會受到限制，概不保證證券及／或發行人在所有時候的信貸可靠性。

7. 與抵押及／或證券化產品有關的風險

- 本基金可投資於資產抵押證券及資產抵押商業票據，該等證券可能高度缺乏流動性，並且價格容易大幅波動。與其他債務證券相比，該等工具可能面臨更大的信貸、流動性及利率風險。其通常面臨延期及提前還款風險及與相關資產有關的付款義務未獲履行的風險，這可能會對證券的回報產生不利影響。

8. 主權債務風險

- 投資於由若干已發展及發展中國家的政府或其機構及部門（「政府實體」）發行或擔保的債權證券涉及較高風險。控制償還主權債務的政府實體可能無法或不願意在債務到期時根據有關債務的條款償還本金及／或利息。
- 政府實體按時償還到期本金及利息的意願或能力可能受多項因素影響，其中包括其現金流動狀況、其外匯儲備量、在債務到期日的外匯供應是否充足、相對於整個經濟體系的債務負擔規模、政府實體對國際貨幣基金組織的政策，以及政府實體可能受到的政治限制。
- 政府實體可能無法就其主權債務還款。主權債務持有人（包括本基金）或會被要求參與有關債務重組，並向政府實體借出更多借款。

9. 使用金融衍生工具的風險

- 與金融衍生工具有關的風險包括對手方／信貸風險、流動性風險、估值風險、波動性風險及場外交易風險。金融衍生工具的槓桿元素／組成部分可導致產生遠高於本基金投資於金融衍生工具的金額的損失。投資金融衍生工具可導致本基金產生重大損失的高風險。

10. 有關反向回購交易的風險

- 倘持有現金的對手方失責，則本基金可能蒙受損失，原因為於收回已交付現金時可能出現延誤或難以變現抵押品，或出售抵押品的所得款項可能因抵押品的定價不準確或市場變動而少於給予對手方的現金。

11. ESG 投資風險

- 在投資過程中採用 ESG 及可持續性標準，或會導致剔除本基金本來可能投資的證券。該等證券可能是管理本基金時參照的基準的一部分，亦可能是潛在投資範圍之內。此舉或會對表現產生正面或負面影響，並可能意味著本基金的表現有別於參照相同基準管理或投資於相似的潛在投資範圍但未有採用 ESG 或可持續性標準的基金。

- 此外，將 ESG 及可持續性標準納入投資決策時，缺乏 ESG 及可持續性標準的通用或統一定義和標籤，可能會導致經理採取不同的方法。換言之，我們可能難以對表面目標類似的基金進行比較，且該等基金將採用不同的證券選擇和剔除標準。因此，其他類似基金的表現狀況可能較預期出現更大的偏差。此外，在缺乏通用或統一定義和標籤的情況下，將需要施加一定程度的主觀性，所以基金可能投資於其他經理或投資者不會投資的證券。

本基金過往的業績表現如何？

- 往績並非預測日後業績表現的指標。投資者未必能取回全部投資本金。
- 基金業績表現以曆年末的資產淨值作為比較基礎，股息會滾存再作投資。
- 上述數據顯示A-2類累積的價值在有關曆年內的升跌幅度。業績表現數據以美元計算，包括經常性開支，但不計及閣下可能須支付的認購費及贖回費（如有）。
- 投資經理認為A-2類累積是最適合的代表股份類別，原因是此股份類別開放予香港零售投資者投資，而且大致上反映本基金的表現特性。
- 基準為有抵押隔夜融資利率。
- 基金發行日：09/1984
- A-2 類累積發行日：09/1984

本基金有否提供保證？

本基金並不提供任何保證。閣下未必能取回全數投資金額。
