	CAD1,500	CAD1,000,000
	NZD2,000	NZD1,200,000
Additional	-	-

What is this product?

Invesco Asia Consumer Demand Fund (the “Fund”) is a fund constituted in the form of a mutual fund. It is domiciled in Luxembourg and its home regulator is the CSSF, Luxembourg supervisory authority.

Objectives and Investment Strategy

The objective of the Fund is to achieve long-term capital appreciation by investing primarily (at least 70% of the net asset value of the Fund) in equity securities of Asian companies whose business is likely to benefit from, or is related to growth in domestic consumption in Asian economies, excluding Japan. For the purposes

Invesco Asia Consumer Demand Fund

of the Fund, “Asian companies” shall mean (i) companies having their registered office in an Asian country (ii) companies established or located in countries outside of Asia but carrying out their business activities predominantly in Asia, or (iii) holding companies the interests of which are predominantly invested in equity of companies having their registered office in an Asian country.

Asian companies whose business will benefit from, or is related to growth in domestic consumption include (but is not limited to):

- companies predominantly engaged in the production, distribution, marketing or retail sale of consumer nondurables or durables, such as food, beverages, household products, apparel, cosmetics, tobacco, consumer electronics and electrical appliances, automobiles and companies in the information technology sector which are considered to benefit from the trend of rising domestic consumption.
- companies primarily engaged in the development and management of properties including (but not limited to) residential properties, hotels, resorts and shopping malls). The Fund may invest directly in closed ended listed real estate investment trusts (“REITs”).
- companies which benefit from growing disposable income and increasing demand for consumer related services such as travel, media, healthcare, utilities and telecommunications as well as insurance companies and financial services related companies.

Up to 20% of the net asset value of the Fund may be exposed to China A shares listed on the Shanghai or Shenzhen Stock Exchanges, via Stock Connect. The Fund may invest up to 30% of its NAV in China A shares and China B shares (including exposure through Stock Connect, participation notes, equity linked notes or similar access products or arrangements).

Up to 30% of the net asset value of the Fund may be invested in money market instruments, equity and equity related instruments issued by companies or other entities not meeting the above requirement or debt securities (including convertible debt) of issuers worldwide. For the avoidance of doubt, less than 30% of the net asset value of the Fund may be invested in debt securities (including convertible debt).

For more information on the Fund’s environmental, social, and governance (ESG) criteria, please refer to Appendix B of the Prospectus where the Fund’s pre-contractual information pursuant to Article 8 of SFDR¹ is available.

The Fund may use derivatives (including but not limited to futures, forwards, non-deliverable forwards, swaps and complex options structures) for hedging and efficient portfolio management purposes. Such derivatives may also incorporate derivatives on derivatives (i.e. forward dated swaps, swap options). However, financial derivative instruments will not be extensively used for investment purposes (i.e. entering into financial derivative instruments to achieve the investment objectives).

The Fund will engage in securities lending, however, the proportion lent out at any time will be dependent on dynamics including, but not limited to, ensuring a reasonable rate of return for the lending Fund and borrowing demand in the market. As a result of such requirements, it is possible that no securities are lent out at certain times. The expected proportion of the net asset value of the Fund subject to securities lending is 20%. Under normal circumstances, the maximum proportion of the net asset value of the Fund subject to securities lending is 29%.

Use of derivatives / investment in derivatives

The Fund’s net derivative exposure² may be up to 50% of the Fund’s net asset value.

What are the key risks?

Investment involves risks. Please refer to the Prospectus for details including the risks factors.

- **General investment risk** - There can be no assurance that the Fund will achieve its investment objective. The instruments invested by the Fund may fall in value due to any of the key risk factors below and therefore your investment in the Fund may suffer losses. There is no guarantee of the repayment of principal.

¹ Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector.

² Please refer to the offering document for details regarding the calculation methodology of net derivative exposure.

Invesco Asia Consumer Demand Fund

- **Currency exchange risk**
 - The Fund's assets may be invested in securities denominated in currencies other than the base currency of the Fund. Also, a class of shares may be designated in a currency other than the base currency of the Fund. The net asset value of the Fund may be affected unfavorably by fluctuations in the exchange rates between these currencies and the base currency and by changes in exchange rate controls.
 - For the hedged share classes, there is no guarantee that the exposure of the currency in which the shares are denominated can be fully hedged at all times against the base currency of the Fund or the currency or currencies in which the assets of the Fund are denominated. Investors should also note that the successful implementation of the strategy may substantially reduce the benefit to shareholders in the relevant class of shares as a result of decreases in the value of the share class currency against the base currency of the Fund. In the event that investors request payment of redemption proceeds in a currency other than the currency in which the shares are denominated, the exposure of that currency to the currency in which the shares are denominated will not be hedged.
- **Volatility risk** - Investors should note that volatility in the Fund's investment portfolio may result in large fluctuations in the net asset value of the Fund which may adversely affect the net asset value per share of the Fund and investors may as a result suffer losses.
- **Equities risk** - The value of, and income derived from, equity securities held may fall as well as rise and the Fund may not recoup the original amount invested in such securities. The prices of and the income generated by equity securities may decline in response to certain events, including the activities and results of the issuer, general political, economic and market conditions, regional or global economic instability and currency and interest rate fluctuations. Thus, this may adversely impact the Fund and/or the interests of investors.
- **Liquidity risk** - The Fund may be adversely affected by a decrease in market liquidity for the securities in which it invests where some of the Fund's securities may become illiquid and the Fund may experience difficulties in selling securities at a fair price within a timely manner. This could impact the Fund's ability to meet redemption requests on demand.
- **Concentration risk** - As the Fund will invest primarily in Asian companies whose business is likely to benefit from, or is related to growth in domestic consumption in Asian economies, excluding Japan, such concentration may exhibit a higher than usual degree of risk and the Fund may be subject to above average volatility. The diversification benefits that would ordinarily accrue from investment in a fund having a more diverse portfolio of investments, may not apply to this Fund.
- **Risk of investing in REITs**
 - The Fund does not invest directly in real estate and insofar as it directly invests in REITs, any dividend policy or dividend payout at the Fund level may not be representative of the dividend policy or dividend payout of the relevant underlying REIT. The relevant underlying REIT may not necessarily be authorised by the CSSF and/or the Securities and Futures Commission ("SFC") in Hong Kong.
 - Please note that the Fund is authorised under the SFC's Code on Unit Trusts and Mutual Funds and not under the SFC's Code on Real Estate Investment Trusts. CSSF and/or SFC authorisation does not imply official approval or recommendation.
- **Emerging markets risk** - The Fund invests in emerging markets which may involve increased risks and special considerations not typically associated with investment in more developed markets such as, liquidity risk, currency risks/ control, political and economic uncertainties, policy, legal or regulatory event affecting the relevant markets and taxation risks, settlement risks, custody risk and the likelihood of a high degree of volatility.
- **Risk of investing in financial derivative instruments ("FDI") for efficient portfolio management and hedging purposes** - Investments of the Fund may be composed of FDI used for efficient portfolio management or to attempt to hedge or reduce the overall risk of its investments. Risks associated with FDI include counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. The leverage element/component of a FDI can result in a loss significantly greater than the amount invested in the FDI by the Fund. Exposure to FDI may lead to a high risk of significant loss by the Fund.

Invesco Asia Consumer Demand Fund

How has the Fund performed?

- The Fund Manager views Class A semi-annual distribution - USD (the "Share Class"), being the focus share class of the Fund available to the public of Hong Kong, as the most appropriate representative share class.
- Fund launch date: 25 March 2008.
- Share Class launch date: 25 March 2008.
- The base currency of the Fund is USD.
- Past performance of the Share Class is calculated in USD.
- Performance is calculated after deduction of ongoing charges and is inclusive of gross income reinvested. Any entry/exit charges shown are excluded from the calculation.
- Past performance is not a guide to future performance.
- Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year end, NAV-To-NAV, with dividend reinvested.
- These figures show by how much the Share Class increased or decreased in value during the calendar year being shown.

Is there any guarantee?

The Fund does not have any guarantees. You may not get back the full amount of money you invest.

*The fees can be increased subject to the prior approval of the Securities and Futures Commission ("SFC") and by giving not less than three months' prior notice to the investors.

Other fees

You may have to pay other fees when dealing in the shares of the Fund.

Additional Information

- You generally buy and redeem shares at the Fund's next-determined net asset value after the Hong Kong Sub-Distributor and Representative receives your request in good order on or before 5:00pm, Hong Kong time, being the Fund's dealing cut-off time. Before placing your subscription or redemption orders, please check with your distributor for the distributor's internal cut-off time (which may be earlier than the Fund's dealing cut-off time).
- The net asset value of the Fund is calculated each "Business Day" (as defined in the Prospectus) and the price of shares is published each "Hong Kong business day" (as defined in the "Supplement - Additional Information for Hong Kong Investors") at www.invesco.com/hk. This website has not been reviewed by the SFC.
- Investors may obtain the past performance information of other share classes offered to Hong Kong investors at www.invesco.com/hk. This website has not been reviewed by the SFC.
- Investors may obtain other information of this product at www.invesco.com/hk. This website has not been reviewed by the SFC.
