What is this product?

Fidelity Funds is an open-ended investment company established in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

Objectives and investment policy

- The fund is an Equity fund and aims to achieve capital growth over the long term.
- The fund invests at least 70% of its assets, in equities of companies that are listed, headquartered, or do most of their business in the UK. The fund seeks to invest in special situations equities (equities that are undervalued and whose recovery potential is not recognised by the market). The Investment Manager will focus on companies it believes to be undervalued and whose recovery potential (i.e. potential recovery of share prices reflecting improving business fundamentals) is not recognised by the market (i.e. special situations). The fund will have a mixture of investments in larger, medium and smaller sized companies.
- In actively managing the fund, the Investment Manager considers growth and valuation metrics, company financials, return on capital, cash flows and other financial measures, as well as company management, industry, economic conditions, and other factors. The Investment Manager takes into account sustainability risks in its investment process.

- The Investment Manager will use the FTSE All Share Index (the “Benchmark”) for performance comparison only.
- The fund may use derivatives for hedging, efficient portfolio management and investment purposes.
- The fund will not engage extensively in securities lending, repurchase and reverse repurchase transactions.

Use of derivatives/investment in derivatives

The fund’s net derivative exposure may be up to 50% of its net asset value.

What are the key risks?

Investment involves risks. Please refer to the Hong Kong offering documents for details including the risk factors.

Risk to Capital and Income (Investment Risk)

- The assets of the fund are subject to fluctuations in value. There is no guarantee of repayment of principal and you may not get back the original amount invested. Past performance is no guarantee of future performance.

Equities

- The fund’s investment in equities securities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events including changes in investment sentiment, political and economic conditions and issuer-specific factors.

Concentration Risk

- The fund’s investments are concentrated in a single country (i.e. UK). The value of the fund may be more volatile than that of a fund having a more diverse portfolio of investments.
- The value of the fund may be more susceptible to adverse economic, political, policy, foreign exchange, liquidity, tax, legal or regulatory event affecting the UK market.

Small and Mid Cap Equity Risk

- Equities of small and mid capitalisation companies can be more volatile to adverse economic developments and less liquid than those of larger companies.

Foreign Currency Risk

- The fund’s assets may be denominated in currencies other than the base currency of the fund. Also, a class of shares may be designated in a currency other than the base currency of the fund. Fluctuations in the exchange rates between these currencies and the base currency as well as changes in exchange rate controls may adversely affect the fund’s net asset value.

Financial Derivative Instruments

- The fund’s net derivative exposure may be up to 50% of its net asset value. The use of derivatives may give rise to liquidity risk, counterparty credit risk, volatility risk, valuations risks and over-the-counter transaction risk at times. The leverage element/component of a derivative can result in a loss significantly greater than the amount invested in the financial derivative instrument by the fund. Exposure to financial derivative instruments may lead to a high risk of significant loss by the fund.

How has the fund performed?

* On 6 December 2021, FAST - UK Fund (non SFC-authorized) merged into Fidelity Funds - UK Special Situations Fund.

On 14 February 2022, Fidelity Funds - United Kingdom Fund merged into Fidelity Funds – UK Special Situations Fund.

- Past performance information is not indicative of future performance. Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year end, NAV-to-NAV, with dividend reinvested.
- These figures show by how much the Class A-ACC-Euro increased or decreased in value during the calendar year being shown. Performance data has been calculated in Euro including ongoing charges and excluding any subscription fees and redemption fees you might have to pay.
- Fund launch date: 2018
- Class A-ACC-Euro launch date: 2019
- Class A-ACC-Euro is selected as the most appropriate representative share class as it has the longest track record.
- The Benchmark is the FTSE All Share Index.

Is there any guarantee?

This fund does not have any guarantees. You may not get back the full amount of money you invested.
